

You call the shots...

Choose the
sort of service
your team
will run

Hand pick your
team members

Decide on the
training that
they need

Can they
get voted
as the top
Dream
Team?

Youth Workforce Dream Team is an interactive game created as part of a research project on the future of training and development for leaders and managers in services for young people in England.

It asks you to ***pick the staff members and training*** that you think make for the best team of leaders and workers.

When you have picked and trained your team – other people can vote for it – and ***you can vote for the teams others people have created.***

All the teams created, and votes cast, before the 18th February 2008 will feed into a research report for the Children's Workforce Development Council – and will have a real impact on decisions that the report provides information for.

Getting started

1. Visit <http://tinyurl.com/243wr7>
2. Choose 'Create your team'
3. Follow the instructions to choose your project type, the staff you want, and the training they need.
4. Submit your team into the league table where others can vote for it.

Can you pick and train the dream team that makes it to the top of the league?

Youth Workforce Dream Team is a joint project of [The National Youth Agency](#) and [FPM Training](#) for [The Children's Workforce Development Council](#). Contact timd@nva.org.uk with any questions.
